**Webinar
Date and time TBD**

Any player who is new to USTA League Tennis or who has not played since 2015 (2016 for players 60 and over) or earlier will have to self rate to play in 2019. Players will be able to self-rate when they register for their teams on the Internet. Then go to <http://tennislink.usta.com/leagues> and log in. Players will be assigned a rating based on the [Experienced Player Guidelines](#) document. If players are assigned a rating higher than they anticipated, they must complete the appeal process on line. If they are assigned a rating lower than they anticipated, they must choose the appropriate rating on the last screen and "save" the entry.

Please be sure that when you sign up for a team that you have the commitment of enough players to play out the full schedule. Defaulting whole team matches is a serious offense. All matches must be reported as soon as they are played. **At least 50% of team members must be at the level of the team.**
